🔍 What is visual search?

[Razor Sharp Digital](#) Visual search allows users to search using images instead of text. Examples of visual search include Google Lens and Pinterest Lens, which enable users to identify objects, find information, and complete tasks by simply pointing their smartphone cameras at an object or scene.

40-WORD ANSWER

What is visual search?

Visual search enables users to conduct search using images in place of text. Examples of visual search include Google Lens and Pinterest Lens, which let users identify objects, find information, and fulfill tasks by simply pointing their smartphone cameras at an object or scene.
